

## **Energetic Mothers**

### Description:

Learn and apply the universal self-healing tool, EFT. With EFT you can cure your child's allergies, improve your relationship with your children, fight cavities, help with sleeping, deal with depression and anxiety. All of this can be done using EFT. We all know that parenting is an intense experience, often showing us where we need healing in our own development. EFT quickly and painlessly dissolves those internal blocks and allows us to become the parents we truly can be. As a homeschooling mother of three who understands the devotion we have to our children, I am committed to helping other parents empower themselves.
