

Biz In A Boxx

Description:

Biz In A Boxx is a hands-on educational tool aimed solely at young entrepreneurs. It gives kids and teens, ages 7 and up, the practical skill sets and knowledge that will enable them to turn their ideas into reality. The approach to teach our youth about the business world isn't weighed down by theories. Biz In A Boxx is designed to give them real-life experience in starting and running their own business.

Success in business isn't limited by age. It's only limited by what we don't know and the fear of trying.

The young will inherit the earth. How prepared will they be?
