

Natural Earth Farm and Fiber Studio

Description:

Our family makes hand crafted, waldorf inspired toys and natural fiber goods from our homestead. We are working towards a home centered, self-sustaining lifestyle and work to support not only our home business but also other local businesses and home based, small businesses that care about the earth. Examples of what our family makes include: hand knit gnomes, animals and wool balls. We make a branch block matching game, branch block candlestick holders. We also hand dye play silks and hand crochet organic cotton washcloths and hemp cloths. We offer handmade beeswax candles, natural art supplies including beeswax crayons, natural watercolor paints, modeling wax and more. Peace Fleece Wool Yarn, organic cotton yarn, and handcraft kits can be found at our site.
